

CUSTOM SIGNS

We have thousands of designs, symbols and messages readily available, or have us customize a sign to meet your needs.

Correctional Industries' talented artists and professional craftsman are always happy to provide drawings and samples for your approval.

REDWOOD SIGNS

Correctional Industries offers custom redwood signs that are perfect for welcoming your visitors, identifying buildings, parks or campus grounds. These attractive signs are each hand cut and then sandblasted to leave raised images and text. High quality stain and paint are then applied, as well as a final coat of sealant to ensure it's longevity.

Check out our entire line of sign products by visiting our website and browsing the Signage Catalog. For further information and pricing, call your Account Executive or our sign shop at 509.526.6498.

Aluminum and Custom Redwood Signs

WASHINGTON STATE
CORRECTIONAL INDUSTRIES

YOU HAVE OUR GUARANTEE ON EVERY SIGN

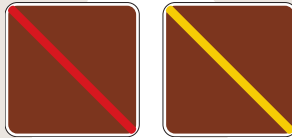

Correctional Industries offers a complete line of highly visible signs, decals, and stickers that will get your message across where you need it most. Each sign meets aluminum grade specifications and is covered with quality reflective sheeting, guaranteed not to crack or peel in cold, rainy weather for seven years.

PARK HOURS
6:00AM – DUSK

AREA CLOSED

Our team of experienced professionals perform quality checks at each stage of the production process, ensuring you the highest quality signage for your dollar.

Correctional Industries takes pride in our products and the process by which we produce our signs. We only use the highest quality materials, while maintaining our commitment of manufacturing products that are environmentally friendly. Our signs meet all Washington State Parks, Washington Department of Fish and Wildlife, and United States Forest Services standard specifications.

Combine a red or yellow slash with any symbol to prohibit or warn the general public from such activities.

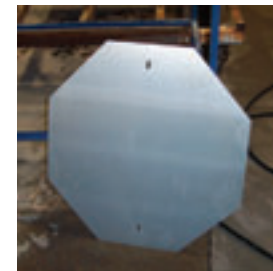

REFURBISHING YOUR OLD SIGNS

Correctional Industries' sign shop understands that our communities are experiencing difficult economic times. You may be faced with the dilemma of needing to replace old signs, but not having the funds available in your budget. As a standard practice, when those reflective aluminum signs hit the end of their useful lives, they are destined for the landfill or sold for scrap.

CI has the ability to strip your old, but usable, discolored or faded signs. Utilizing waterjet technology, the hydrostripping process applies an ultra high-pressure water stream that removes worn out reflective sheeting from old signs without damaging the coatings on the metal. The result is a restored sign blank that can be used time and again at half the cost of buying new aluminum while conserving our precious natural resources.

Save your old signs and if you do not want to refurbish them, CI will give you current aluminum recycle credit toward your next order of new signs. Call our sign shop at 509.526.6498 and we will be happy to make arrangements to pick up your old signs.
